

PAGLIAI FILM GROUP

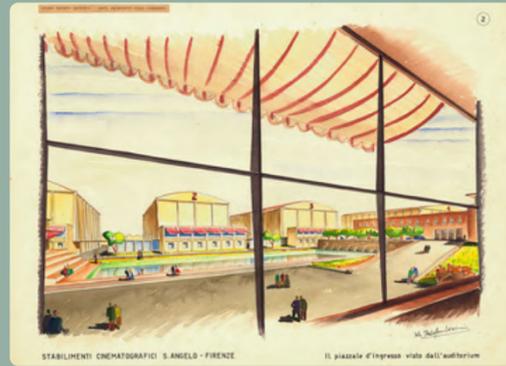

Company
profile

Pagliari Film Group is a modern **cinema, tv & adv Production Company**,
with heart based in Florence and internationally oriented.

Since 2018, we've turned stories into powerful, memorable images that last.
We work in Italy and globally, sharing our unique creative vision and style.

Introduction

Otello Pagliai Produzioni was found in **1939** in Florence, Italy. Otello had always been predestined to show business, in love with theatre but even more so with cinema and convinced his parents to enrol him in Florence cinema school.

After his first short film, he moved to Rome, where he became art consultant for Venus Film and author of films himself. In 1943, he wrote the script for "Sant'Elena piccola isola", starring a very young Alberto Sordi.

The Story

85 anni di emozioni

Back in Florence in the late 1940s, he returned working on his first idea, the project of a "**new city of the Cinema**" in the city, as he strongly believed that Italy's film industry would find it helpful to be able to use top quality equipment in state-of-the-art film studios.

Unfortunately Otello's dreams never came true, but in 2018 Otello Pagliai Produzioni merged with Saints Film Group (executive production company), and his passion for cinema found new expression **in the hands of his nephews, Cosimo and Matteo Giulio.**
